

WEBSITE USER MANUAL

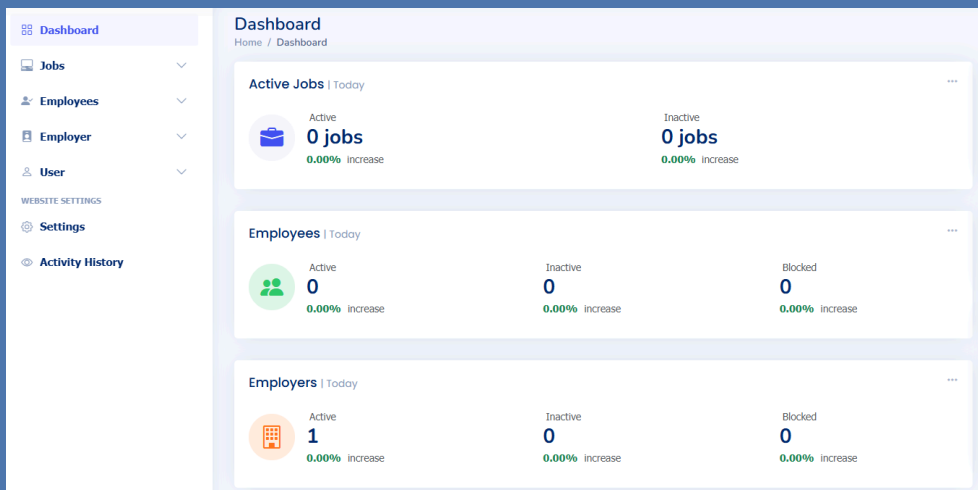

Dashboard

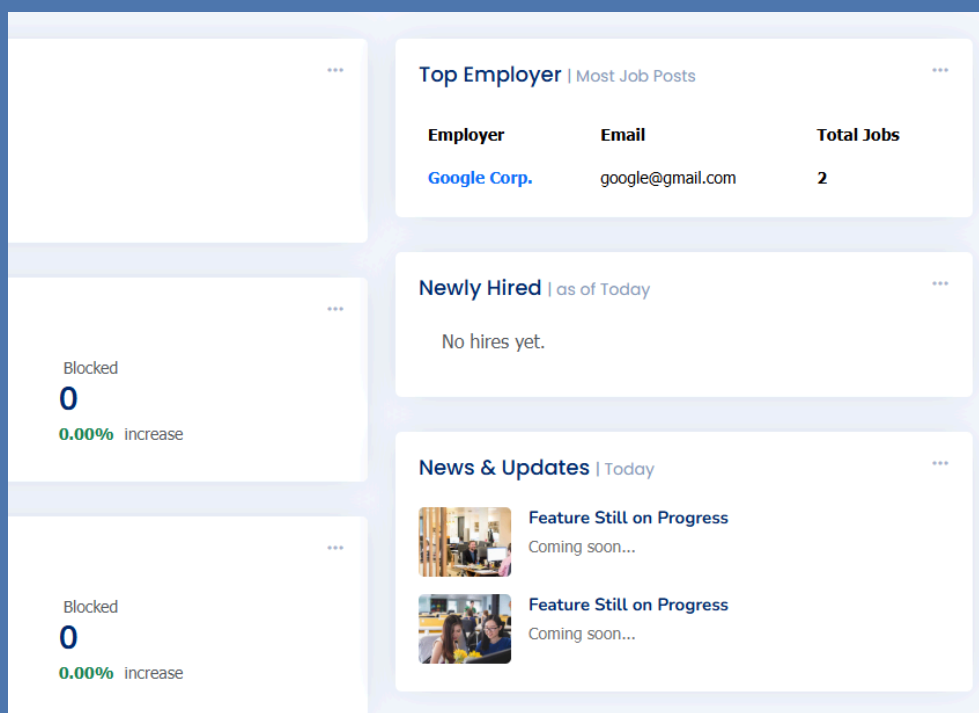

The Dashboard is your main entry point and provides an overview of key metrics and activities within the TMCAdmin system.

Overview Cards: At the top, you'll find summary cards for:

- **Active Jobs:** Shows the number of active jobs and any recent percentage increase.
- **Inactive Jobs:** Shows the number of inactive jobs and any recent percentage increase.
- **Employees:** Displays counts for Active, Inactive, and Blocked employees, along with percentage changes.
- **Employers:** Shows counts for Active, Inactive, and Blocked employers, with percentage changes.

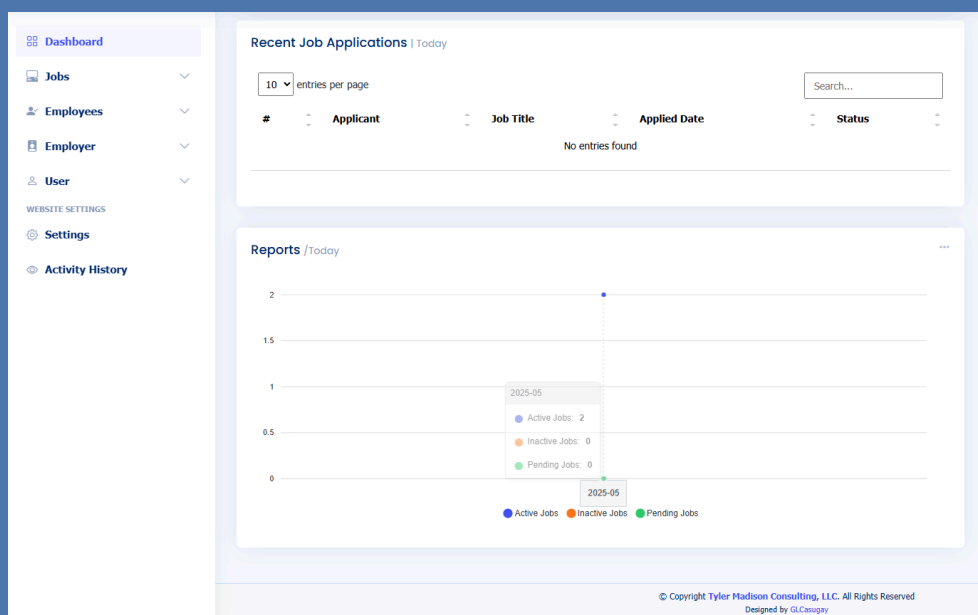

- **Top Employer:** Highlights the employer with the most job posts, showing their name, email, and total jobs.
- **Newly Hired:** This section is intended to show recently hired candidates. (e.g., "No hires yet.")

Dashboard

- **News & Updates:** Displays recent announcements or system updates. (e.g., "Feature Still on Progress")
- **Job Applications by Stage:** A visual chart (e.g., a radial or polar area chart) displays the distribution of job applications across various stages: Applied, First Interview, Second Interview, Final Interview, See HR, Declined, Hired.
- **Recent Job Applications:** A table lists recent job applications, showing Applicant, Job Title, Applied Date, and Status. (e.g., "No entries found")

Jobs Module

The Jobs Module allows you to manage all job postings within the system.

- **Viewing Job Postings:** A table displays all current job listings, including Job ID, Title, Location, Salary, Employer, Start Date, Deadline, Status, and the number of Applicants.
- **Actions:**
 - **Deactivate:** For each active job posting, a "Deactivate" button is available in the "Actions" column. Clicking this will set the selected job to inactive.
- **Filtering and Searching:** You can select the number of entries to display per page and use the search bar to find specific job postings.
- Sub-sections visible in the sidebar (though not fully detailed in the main panel screenshot):
 - **Active Jobs**
 - **Filled Jobs**

The screenshot shows the TMCAdmin interface with the Jobs Module selected. The sidebar on the left contains links to Dashboard, Employees, Employer, User, Website Settings, Settings, and Activity History. The main panel displays the Jobs section with a table of job postings. Annotations with arrows point to specific features: 'Use to add Job from filling up a form' points to the '+ Add Job' button; 'Use to add Job from exsisting job posting' points to the 'Duplicate Job' button; and 'Set the selected job to inactive.' points to the 'Deactivate' button in the Actions column of the table.

Jobs Module Interface Details:

- Buttons:** '+ Add Job' (blue), 'Duplicate Job' (gray).
- Table Headers:** Job ID, Title, Location, Salary, Employer, Start Date, Deadline, Status, Applicants, Actions.
- Table Data:**

Job ID	Title	Location	Salary	Employer	Start Date	Deadline	Status	Applicants	Actions
004	Marketing Specialist	Austin, TX	\$60,000.00		2025-03-06 23:55:43	2025-05-10 23:59:59	Active	0	Deactivate
003	Data Analyst	Chicago, IL	\$68,000.00		2025-03-06 23:55:43	2025-04-20 23:59:59	Active	0	Deactivate
002	Graphic Designer	Los Angeles, CA	\$55,000.00	Apple	2025-01-14 23:55:43	2025-05-15 23:59:59	Active	0	Deactivate
001	Software Engineer	New York, NY	\$75,000.00	Apple	2025-02-04 23:55:43	2025-04-30 23:59:59	Active	0	Deactivate

Employees Module

The Employees Module is used to manage employee details and their status within the organization.

- **Viewing Employees:** This section displays a list of all employees with their Employee ID, Full Name, Email, Phone, Address, Position, and Date Created.
- **Actions:** For each employee, the following actions are available:
 - **Request Feedback:** Click the "Request Feedback" button to send an email to the selected employee with a link to a feedback form.
 - **Deactivate:** Click the "Deactivate" button to set the selected employee's status to inactive.
 - **Block:** Click the "Block" button to block the selected employee's access or privileges.
- **Filtering and Searching:** You can select the number of entries to display per page and use the search bar to find specific employees.
- **Sub-sections:**
 - **Employees:** Displays all active employees.
 - **Inactive Employees:** Lists employees who have been deactivated.
 - **Blocked Employees:** Shows employees who have been blocked.

The screenshot displays the TMCAdmin web application interface. On the left is a sidebar menu with options: Dashboard, Jobs, Employees, Employer, User, Website Settings, Settings, and Activity History. The main content area is titled "Employee's Profile" and shows the profile of "Geric Lois Casugay". The profile includes a placeholder for a profile picture, social media icons for Facebook, Instagram, and LinkedIn, and buttons for "Edit" and "Block". To the right of the profile is a "Profile Details" section with the following information:

Employer Module

The **Employer Module** allows for the management of employer accounts that post jobs on the platform.

- **Viewing Employers:** A list of all employers is displayed, showing their Employer ID, Name, Location, Status (Active/Inactive), and Date Created.
- **Add Employer:** Click the "+ Add Employer" button to create a new employer account.
- **Actions:**
 - **Deactivate:** Click the "Deactivate" button to set the selected employer's status to inactive.
 - **Block:** Click the "Block" button to block the selected employer.
- **Filtering and Searching:** You can select the number of entries to display per page and use the search bar to find specific employers.
- **Sub-sections:**
 - **Employer:** Displays all active employers.
 - **Inactive Employer:** Lists employers who have been deactivated.
 - **Blocked Employer:** Shows employers who have been blocked.

The screenshot displays the TMCAdmin web application interface. On the left is a sidebar menu with options: Dashboard, Jobs, Employees, Employer (selected), Inactive Employer, Blocked Employer, User, Website Settings, Settings, and Activity History. The main content area is titled 'Employer' and includes a '+ Add Employer' button. A callout box points to this button with the text 'Use to add an Employer Account'. Below the button is an 'Employer List' section with a description: 'Manage and view all employer in a structured table format. This section allows you to track employer listings, including titles, descriptions, locations, salaries, and dates.' The list includes a '10 entries per page' selector and a search bar. The table has columns for Employer ID, Name, Location, Status, Date Created, and Actions. A single entry is shown for 'Google Corp.' with status 'Active' and date '2025-05-21 09:42:44'. Two callout boxes with arrows point to the 'Deactivate' and 'Block' buttons in the Actions column. The first callout says 'Set the selected Employer to inactive.' and the second says 'Block the selected Employer.' The footer contains copyright information: '© Copyright Tyler Madison Consulting, LLC. All Rights Reserved. Designed by GLCagency'.

Employer Module

Employer Profile: Allows you to view the whole details of the employer account. Shows also a list of posted jobs and the job's details.

The screenshot displays the TMCAdmin web application interface. On the left is a sidebar with navigation links: Dashboard, Jobs, Employees, Employer, User, Website Settings, Settings, and Activity History. The main content area is titled 'Employer Profile' and shows the profile for 'Google Corp.' with an 'Edit' button. Below the profile is a 'Jobs' section with a table of posted jobs. The table has columns for Job ID, Title, Salary, Start Date, Deadline, Status, Applicants, and Actions. Two jobs are listed, both for 'IT Web Developer and Designer' with a salary of \$35,000.00. The first job (ID 17) has a start date of 2025-05-21 09:45:46 and a deadline of 2025-06-05 09:45:00, with 1 applicant. The second job (ID 16) has a start date of 2025-05-21 09:43:58 and a deadline of 2025-06-04 09:43:00, with 0 applicants. Both jobs are marked as 'Active' and have 'View', 'Edit', and 'Inactive' action buttons. The footer of the page contains copyright information for Tyler Madison Consulting, LLC.

User Module

The **User Module** is for managing admin accounts within the TMCAdmin system.

- **Viewing Admin Accounts:** This section lists all admin accounts, including their Admin ID, Full Name, Email, Phone, Address, Role (e.g., superadmin), and Date Created.
- **Add New Admin:** Click the "+ Add New Admin" button to create a new admin account. Note: This action might be restricted to users with SuperAdmin privileges.
- **Actions:**
 - **Deactivate:** A "Deactivate" button is typically available next to an admin account to deactivate it.
- **Filtering and Searching:** You can usually select the number of entries to display per page and use a search bar to find specific admin accounts.
 - Sub-sections may include: User / Admin Accounts: Displays all active admin users.
 - Inactive Users: Lists admin users who have been deactivated.

The screenshot displays the TMCAdmin interface for managing admin accounts. The left sidebar contains navigation links: Dashboard, Jobs, Employees, Employer, User (selected), Inactive Users, Website Settings, Settings, and Activity History. The main content area is titled 'Admin Accounts' and includes a search bar and a '+ Add New Admin' button. A callout box points to this button with the text: 'Use to add an Admin Account (SuperAdmin can only add account)'. Below the button is a table of admin accounts. The table has columns: Admin ID, Full Name, Email, Phone, Address, Role, Created At, and Actions. One entry is shown: Admin ID 17, Full Name Charles Gray, Email charlestongray2@gmail.com, Role superadmin, Created At 2025-04-01 22:14:42. The Actions column for this entry contains a 'Deactivate' button. A callout box points to this button with the text: 'Deactivate the selected Admin Account.' The footer of the page contains copyright information: '© Copyright Tyler Madison Consulting, LLC. All Rights Reserved. Designed by GLCasugay'.

Settings Module

The **Settings Module** allows for the management of website content such as vlogs and testimonials.

- **Vlogs:**

- **Add Vlog:** Click the "+ Add Vlog" button to add a new vlog entry, likely requiring a title and a link.
- **Viewing Vlogs:** Displays a list of existing vlogs with details such as Vlog ID, Title, Link, Status, Date Created, and available Actions.

- **Testimonials:**

- **Add Testimonials:** Click the "+ Add Testimonials" button to add a new testimonial, likely including details like Name, Testimonial content, Company, Rate, Email, and Date Created.
- **Viewing Testimonials:** Displays a list of existing testimonials.

The screenshot displays the TMCAdmin web application interface. The left sidebar contains navigation links: Dashboard, Jobs, Employees, Employer, User, and Website Settings (with sub-links for Settings and Activity History). The main content area is titled 'Settings' and contains two sections: 'Vlogs' and 'Testimonials'. Each section has an 'Add' button and a table of existing entries. Annotations with arrows point to the 'Add Vlogs' and 'Add Testimonials' buttons, with text boxes stating 'Use to add a Vlog' and 'Use to add a Testimonials' respectively. The Vlogs table has columns: Vlog ID, Title, Link, Status, Date Created, and Action. The Testimonials table has columns: Testimonial ID, Name, Testimonial, Company, Rate, Email, Date Created, and Action. Both tables show 'No [Vlogs/Testimonials] Found'. The footer includes copyright information for Tyler Madison Consulting, LLC.

Activity History

Accessible from the main navigation menu, the **Activity History** section is designed to log actions performed by users within the TMCAdmin system. This typically includes tracking who performed what action and when, which can be crucial for auditing and troubleshooting.

Commonly, an Activity History log might display:

- User who performed the action.
- The action performed (e.g., "Job Posting Created," "User Deactivated," "Settings Updated").
- Timestamp of the activity.
- Details or context of the activity.
- Filtering or search capabilities to find specific log entries.
